# VISION AND MISSION

## Vision

To provide the best value medical care in the most effective and efficient way and providing conveniently accessible medical care to as many populace as possible. We embark on this mission by providing highly skilled medical officers, highly trained staff, a wide range of primary healthcare services and a web-based application for pertinent and accurate patient data retrieval

## Mission

To make available our primary care and allied services nationwide and strive to be the preferred provider of medical care in the communities we serve.

# HISTORY

From a vision of one man wanting to bring quality healthcare closer to the community, it started with his first GP clinic POLIKLINIK PENAWAR in Tampoi, Johor, Malaysia within an area of lower middle-class community catering to the medical needs of families in that area. That was in August 1992.

In August 1993, the second POLIKLINIK PENAWAR opened in the Skudai area catering to the needs of the academia of Universiti Technology of Malaysia and its surrounding communities. It operated 24 hours.

From the onset of the second clinic, highly qualified doctors were selected and employed rather than the usual partnership arrangement. This is to ensure continuity of business expansion and reduce the risk of partner dispute which can lead to the demise of services.

From then on, there was no looking back. The business was incorporated in June 1994 as Kumpulan Perubatan Penawar Sdn Bhd (KPP) with its own management team and Board of Directors. This promotes further expansion with the vision of the company's directors being implemented by its team of management.

Now with its team of assertive and energetic workforce, the company has transformed itself from its single practice GP in the beginning into a well-organised and reputable corporation. Its professionally trained team provided efficient and dedicated services to the general public as well as to corporate clients.

The range of services provided now has expanded to other related medical services like Pharmacy, Psychiatric Specialist Clinic, a community Hospital, Occupational Health Services, Dialysis Centre and many more.

The continuous support it received will ensure its team to strive to provide even better service in the future.

# MANAGEMENT TEAM

Kumpulan Perubatan Penawar Sdn Bhd is headed by dynamic Directors and supported by a team of abled, dedicated and experienced workforce.

The focus is on creating and maintaining an effective and efficient commercially-responsive operating healthcare services. In this regard, various measures and standard operating procedures have been introduced to reflect the character of the organization as a customer focused entity.

Regular meetings and brainstorming sessions are conducted to address needs of our panel companies and customers. In our search for excellence and enhancement of service levels, close rapport is fostered with panel companies to monitor their requirements.

Regular trainings are also conducted to keep the staff abreast with the changing technology, automation and computerization.

# MANPOWER

## MEDICAL OFFICERS

All our clinics are run by experienced Medical Officers and are registered with the Malaysia Medical Council (MMC). Administration of clinics is run by our trained staff ranging from the registration, data input to billing of patients. This allows our doctors to focus solely on patient care. Adhering strictly to our Company's Medical Officer code of conduct by practicing the "4-Cs", i.e. Clinical Competence, Patient Care, Courtesy and Good Communication.

## STAFFING

Our main staff consists of State Registered Nurse (SRN) and nursing aides who provide services directly to our patients and assist our Medical Officers professionally.

Our training unit conducts regular training to all our resident staff to ensure their competence in all clinical operation aspects from providing nursing aide to dispensing of medication and also administrative work. Our staff abide by the code of "TRUST" which mean their aim is to provide complete medical assistance including follow-up services such as sending out reminders and offering suggestions.

## SUPPORTING STAFF

Our support staff at our headquarters provide ancillary services to our clients. Other than assisting our clinic staff, they also provide training for clients, medical related consultations, coordinate on-site programs, provide customer service other things.

These Clinic support includes medication and disposable item supply to all our clinics and also provides training to upgrade our staff to the highest professional level. We also train to our billing staff to ensure production of accurate and reliable invoices and customers feedback are looked into plus many other functions.

The department at the headquarters are divided into clinic operation, accounts, admin, human resource, inventory, maintenance, IT and customer service. These departments plan and coordinate the operation of the company services.

# LEVERAGING THE POWER OF IT

To deliver quality medical service, speedy and accurate access to medical information or record is paramount. A compromise in any one of these two components will lead to inevitable disaster.

Consequently, we have designed, built and refined our information systems architecture (hardware and software) around the requirement that all relevant medical information is made available accurately and with no perceptible delay, regardless of the location of the branch.

KPP demands this not only at the doctor-to-patient level (micro level) but also at the organization-to-organization level (macro level). KPP has adopted MediNET ([www.medinet.com.my](http://www.medinet.com.my)), an application service provider (ASP) that serves the healthcare community intergrate their business process into a body of practice that transcends role and industry boundaries.

Corporate clients will also benefit from advanced web-base implementation, which allows real time, online access to billing, medical leave and employee medical records. Corporate administrators now need only to deal with one source even if their own operations cover a wide geographical area.

Our very own internal IT Department was created to make all this possible so that you can focus your resources on your own core competencies without having to deal with yet another administrative time-waster.

At KPP, we believe that comprehensive healthcare does not stop at curing the sick. It must also facilitate those who deal with us. Comprehensive healthcare includes reducing the burden of our client's administrative tasks.

Our objective is to make dealing with us a pleasant and efficient experience.

# SERVICES

Kumpulan Perubatan Penawar Sdn Bhd strives to be a one-stop consultant and provider via more service centers for the community.

# POLIKLINIK PENAWAR

The Group owns a chain of medical practices known as Poliklinik Penawar with strategically located branches throughout the country. These clinics are scattered all over Malaysia and deal with all aspects of medically related activities. A central Management Team administers the daily operation. They are supported by experts in areas of administration, finance, pharmaceutical products, corporate health services and information technology.

All clinics are electronically linked-up with a computer networking system called MediNET that has been installed to enable correct and on time billing to our panel companies and to provide a comprehensive patient database with restricted access for medical purposes.

ME08	- Physical Examination & Medical History Taking - E.C.G - Chest X Ray - General Screening 3 (Haematology, Coronary Risk, Diabetic Screen, Renal Screen, Bone/Joints, Liver Screen, Thyroid Screen, Tumour Marker-AFP, - STD Screen, Urinalysis)	RM 190.00
ME09	- Physical Examination & Medical History Taking - E.C.G - Chest X Ray - General Screening 2 (Haematology, Coronary Risk, Diabetic Screen, Renal Screen, Bone/Joints, Liver Screen, Thyroid Screen, STD Screen, Urinalysis)	RM 175.00

## Medical Examination Packages

CODE	MEDICAL EXAMINATION PACKAGES	PRICE
ME10	- Physical Examination & Medical History Taking - E.C.G - Chest X Ray - General Screening 1 (Haematology, Coronary Risk, Liver Screen, Urinalysis, STD Screen)	RM 145.00
ME11	- Physical Examination & Medical History Taking - Chest X Ray - General Screening 1 (Haematology, Coronary Risk, Liver Screen, Urinalysis, STD Screen)	RM 120.00
ME12	- Physical Examination & Medical History Taking - General Screening 1 (Haematology, Coronary Risk, Liver Screen, Urinalysis, STD Screen)	RM 95.00

### LABORATORY TEST DESCRIPTION (General Screening)

#### Haematology Test

Haemoglobin (Hb)  
Total Red Blood Cells (RBC)  
Pack Cell Volume (PCV)  
MCV, MCH, MCHC  
Total White Blood Cell (TWBC)  
5 Part Differential Count  
Platelet Count  
Blood Grouping (ABO/Rh)

#### Coronary Risk

Total Cholesterol  
HDL Cholesterol  
LDL Cholesterol  
Total Cholesterol/HDL Cholesterol Ratio  
Triglycerides

#### Diabetic Screen

Glucose (Fasting)

#### Liver Profile

Total Bilirubin  
Total Protein  
Albumin  
Globulin  
Albumin / Globulin Ratio  
Alanine Aminotransferase (ALT)  
Aspartate Aminotransaminase (AST)  
Gamma Glutamyl Transpeptidase (GGT)  
Alkaline Phosphatase

#### Renal Profile

Urea  
Creatinine  
Sodium, Potassium, Chloride (in Gens2&3)

#### Bone / Joint Profile

Uric Acid  
Calcium  
Phosphorus  
Rheumatoid Arthritis Factor (RAF) (in Gens3)

#### Serology Test (in Gens2&3)

Hepatitis Bs Antigen  
Hepatitis Bs Antibody  
Hepatitis A IgG Antibody (HAV IgG Ab)

#### Thyroid Screen

Free T4

#### Sexually Transmitted Disease (STD)

VDRL & Titre  
TPHA (if VDRL Positive)  
HIV I /II Antibodies (in Gens3)

#### Tumor Maker

Alpha-Fetoprotein (AFP)

#### Urinalysis

Urine FEME (sugar, protein, bacteria, bilirubin, specific gravity, ketone)

## Medical Examination Packages

### ANNUAL MEDICAL PACKAGES 2013

S/ N	Comprehensive Packages And Pricing
<b>1</b>	<b>Annual Check-up Package A - RM80.00</b>
	1. Physical Examination 2. # HOSPITAL PENAWAR PASIR GUDANG

## Background

A community hospital is the natural extension of KPP commitment to ideal of community health. Naturally, we explored every conceivable avenue to make this dream a reality. Finally, after a lot of hard work and endless sacrifices, Hospital Penawar Pasir Gudang opened its doors to the public in August 1997.

## Secondary Heading

Being true our ideal of bringing quality healthcare nearer to you, Pasir Gudang was the most logical for a new hospital. For the local community, the nearest hospital was almost 40km away. Now the local community enjoys the facilities and medical attention of a community hospital it badly needed but never had.

This 50-bedded, fully-facility hospital houses among the best doctors and support staff in the country. It dispenses quality medical attention and treatment to hundreds of people on a daily basis. However, the concept of a community hospital requires that it must be able to do so in a way that is affordable to all. Because KPP has the size and strength to achieve strong economies of scale, the hospital is able to do just that.

Initiated by KPP, Hospital Penawar is a joint-venture project with Kumpulan Perubatan Johor Sdn Bhd (KPJ).

## HOSPITAL PENAWAR PANDAN CITY -

**COMING SOON**

The demand for community based health care spurs the idea of having a second Hospital Penawar within the vicinity of Johor Bahru and thus we are establishing Hospital Penawar Pandan City by the 2<sup>nd</sup> quarter of 2013.

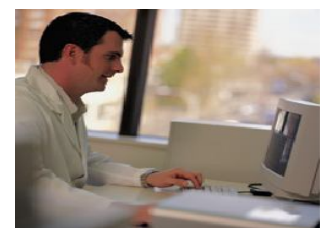

Strategically accessible by various access roads – Jalan Tebrau from the city center and Kota Tinggi area , Jalan Kangkar Tebrau for Pasir Gudang access and the North-South Plus Highway for those coming from Kulai, Gelang Patah and other northern areas – it is meant to provide the community with an affordable medical attention.

## HOSPITAL PENAWAR SERVICES
